#### GUARANTEE

While I exercise the greatest care to have all trees, shrubs and plants sold by me true to name and free from disease, and hold myself prepared to replace, on proper proof, all that may prove to be otherwise, I do not give any warranty, expressed or implied, with respect to them. Any and all such goods are sold upon the express condition and understanding that in case any of them prove to be untrue to name, unhealthy or otherwise defective, I shall not be held responsible for a greater amount than the original price of the goods.

All claims for errors, deductions, etc., must be made immediately upon receipt of goods.

Terms Cash, except by special agreement.

Transportation at purchaser's risk and expense. Packing done in best manner at moderate cost. Grades carefully made to a high standard of excellence.

My stock has been examined by our State Entomologist, and found to be entirely free from San Jose Scale, and other dangerous insects and plant diseases. A copy of the official certificate will be sent to each purchaser.

I have added to my plant a new packing house, 75x100 ft., so that all packing is now done under cover.

#### Telephone 922

I have also changed my telephone service and now have direct wire with branch extending to the packing house.

## EVERGREEN TREES AND SHRUBS

I have for the past five years been devoting an increasing attention to this department. By root pruning annually and transplanting every two or three years, as well as by the systematic pruning of the branches and the giving of sufficient space to each plant to develop it symmetrically, I am able to offer blocks that cannot be excelled in quality. I now have twenty-five acres devoted to this department. I extend a cordial invitation of inspection.

I now have 100 acres devoted to the growing of Ornamental Stock for the critical trade, two packing houses with a combined floor space of 10,500 square feet and a frost proof cellar, 35x100 ft., with 8 ft. walls.

All of my Shade Trees and Evergreens are transplanted at frequent intervals, and in addition are root pruned yearly in August, as are nearly all my Shrubs.

It is my custom to give ample room in the Nursery rows to allow for the development of each individual plant, so that nearly all of my stock can be best described as "specimens."

An increasing trade is showing its appreciation of prompt service, courteous treatment and choice stock carefully handled.
